## Highlights for this release

### Support for JIRA 7

Xporter for JIRA is now compatible with JIRA 7. This release is only compatible with JIRA 7. As soon as possible we will retrofit this release to a JIRA 6 compatible-version.

## Excel Reports

Starting with Xporter for JIRA 7.0, it is possible to use Excel Templates to export Issues to Excel Documents.

The screenshot shows an Excel spreadsheet titled 'CALC-1' with the following data:

Issue CALC-1					
Summary:	As a user, I can login into the system with my username and password				
Reporter:	Rui Rodrigues				
Assignee:	Manuel Mesquita				
Subtasks					
Key	Summary	Priority	Assignee	Estimate (Days)	
CALC-2	Develop the backend authentication service	Medium	Miguel Aroucha	2,00	
CALC-3	Design and create the user database	Medium	Rui Rodrigues	1,00	
CALC-4	Develop the login page	Medium	Rui Rodrigues	3,00	
CALC-5	Test the user story	Medium	Manuel Mesquita	2,00	
Totals:				8	

# Email Report Post Function

Starting with Xporter for JIRA 7.0, you can configure Workflow Post Functions that will send emails with attached reports.
