Microsoft Office Add-Ins

blocked URL

blocked URL
The Microsoft Office add-ins enable Xporter users to create their templates faster and easier.

You can insert fields, functions, and iterations from the add-in picklists, minimizing the need to view the Xporter online documentation.

Sample Templates can be downloaded from the Template Store and adapted to your needs (only on Microsoft Word Add-in). Both add-ins are also available on Microsoft Office Store and you can install them directly from each Microsoft Office application.

Documentation: You are on the Xporter Server documentation. If you are looking for Xporter Microsoft Add-in documentation, you can find it on this pagebl ocked URL.
