Global Permissions

Enable Xporter for all projects and all users

This option will override the permission scheme configuration. The add-on functionality will be available for all users and all the templates will be available for every issue.

Xporter Visibility

Enable Xporter panel on Single Issue View

This option will allow the issue to be exported from Xporter panel in Single Issue View.

Enable Xporter on Customer Portal Request Detail

This option will make Xporter available on Jira Service Desk Customer Portal - Request detail.

Enable Xporter on Customer Portal My Requests

This option will make Xporter available on Jira Service Desk - My Requests.

Enable Xporter on Agile Boards

This option will make Xporter available on Agile Boards.

Enable Xporter on Jira Home menu

This option will make Xporter available in the Jira Home menu.
