Highlights for this release

Documentation page

With this new page, you can explore every feature of Xporter.

Xporter moved to another location of Agile Boards

Performance improvements

Xporter is now faster when loading Jira Issues to start the exportation.

End of Life - Create Document Post Function

Keep in mind that as of the Xporter for Jira Cloud 1.13.0 upgrade, the post function: **Create Document**, will be marked as deprecated upon the release. If you are still using these post functions, we highly recommend you **migrate them to Xporter Multi-action post function** as we will completely **stop supporting them**.

Improvements and Bug fixes

Key	Summary	T	Created	P	Status	Resolution
XPORTRCLOUD-1012	As a Xporter user I can access to a page which provides some useful links.		Jun 07, 2019		CLOSED	Done
