

# v1.1.13-AC (1.14.0) - October 12th, 2019 - Minor Update

The Xporter team announces the release of **Xporter for Jira Cloud v1.1.13-AC (1.14.0)**. This release contains new features and improvements:

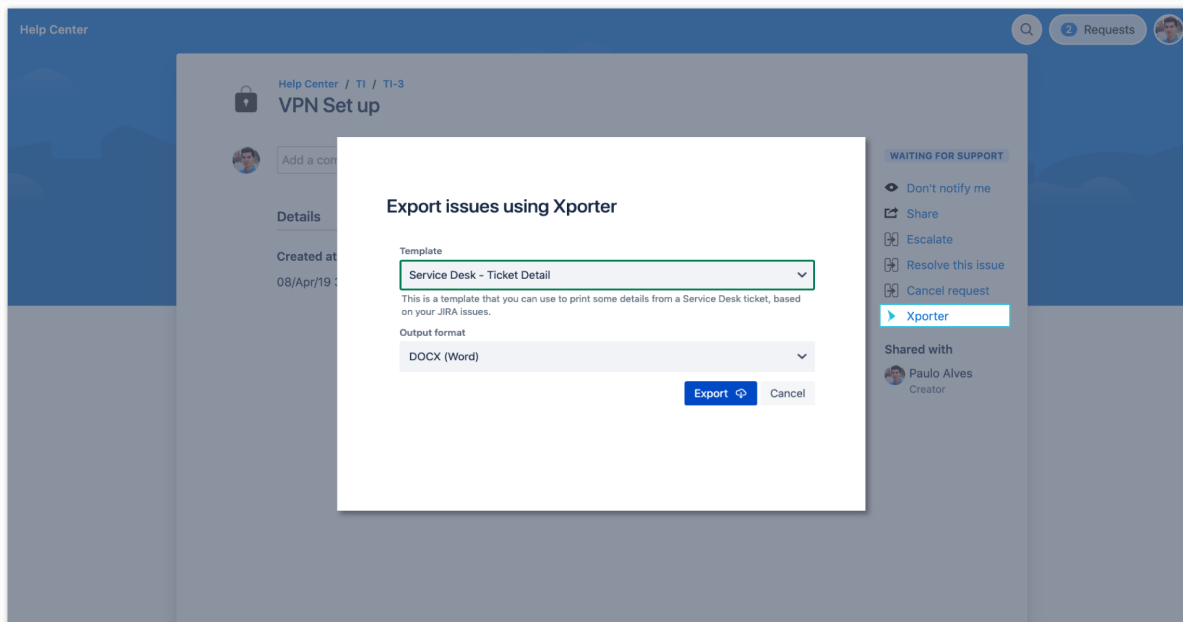

- [Highlights for this release](#)
  - [Export from Jira Service Desk - Ticket Details View](#)
  - [Export from Jira Service Desk - My Requests View](#)
  - [Xporter Home Menu](#)
  - [Template Store moved to Templates](#)
- [New Features and Bug Fixes](#)

## Highlights for this release

### Export from Jira Service Desk - Ticket Details View

Jira Service Desk users can now enable their customers to export tickets from the Ticket Detail view.

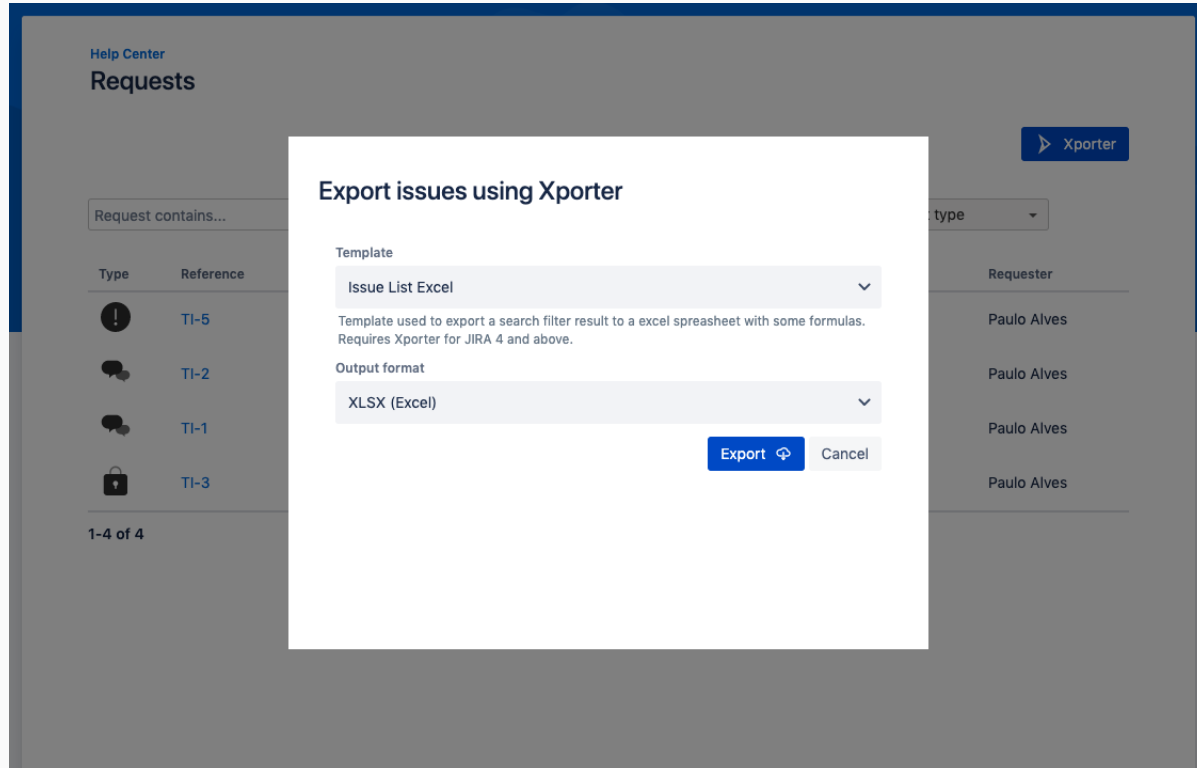

Template management is made by Jira Administrators.

## Export from Jira Service Desk - My Requests View

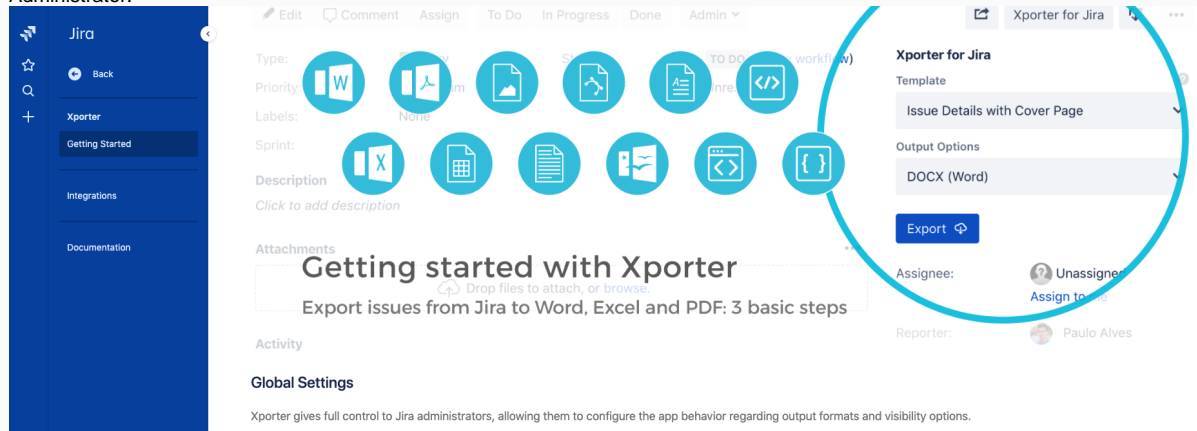

Jira Service Desk users can now enable their customers to get all of their requests printed on documents from the My Requests view.

Template management is made by Jira Administrators.

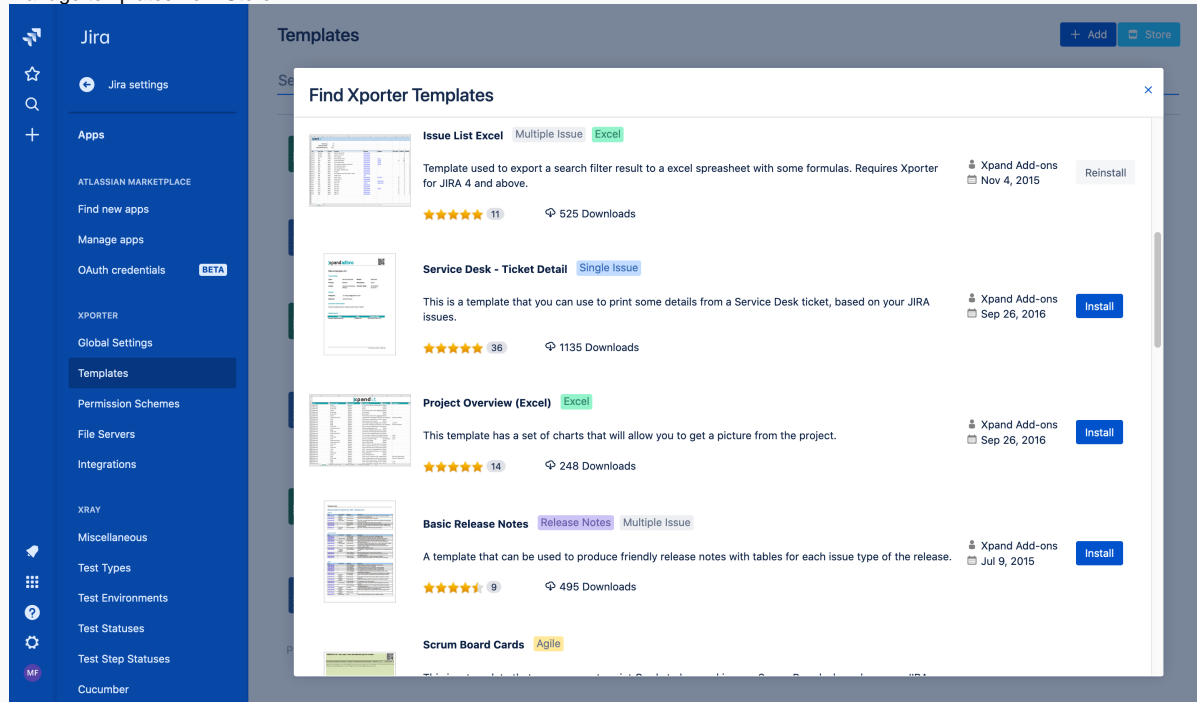

## Xporter Home Menu

Xporter provides a Home Menu available to all users, that can be hidden by the Jira Administrator.

## Template Store moved to Templates

The Template Store is now available inside the Templates page. It's even easier to manage templates from Store.
