

Configuration - Level 1 - Basic

This set of exercises will guide you through all the basic customizations available on the Xporter for Jira App administration section, as well as some advanced ones that can be applied to your Jira instance.

- [Exercise 1 - How to set up Xporter and print your first document](#)
- [Exercise 2 - How to Manage Templates](#)
- [Exercise 3 - How to use the Template Store](#)
- [Exercise 4 - How to use Permission Schemes](#)
- [Exercise 5 - How to use License Management](#)
