- [Manual Installation](#)
- [License Activation](#)

## Automatic Installation

You can install Xporter for Jira through the Universal Plugin Manager (UPM). For information on how to use UPM, take a look [here](#).

The screenshot shows the Jira Administration interface. The top navigation bar includes 'Jira', 'Dashboards', 'Projects', 'Issues', 'Boards', and a 'Create' button. Below this is the 'Administration' section with a search bar and a 'Back to project: DEMO' button. The 'Manage apps' tab is selected, showing the 'Atlassian Marketplace for JIRA'. A search for 'xporter' has been performed, resulting in one app: 'Xporter - Export issues from Jira' by Xpand IT. The app is marked as a 'Top Vendor' and has a 4-star rating (206 reviews) and 2,689 installations. The price is listed as \$1100. The 'Install' button is prominent. Below the app name, there are links for 'CHARTS & DIAGRAMMING', 'DOCUMENTATION', 'JIRA SERVICE DESK', 'REPORTS', and 'TESTING & QA'. A description states: 'With Xporter for Jira, you can create templates as Word and Excel Documents, and export the information in your Jira issues to Word, Excel and PDF. Features: PDF Export, Word Export, Excel Export'. At the bottom of the page, there are links for 'JIRA update check' and 'Settings', and a note about 'The Universal Plugin Manager (v4.0.1) by Atlassian'.

## Manual Installation

If you have the app file (a file with the extension .obr),

1. Go to the **Administration** section of Jira and look for the Apps menu.
2. Select **Upload App** and upload the jiraxporter-X.X.X.obr file (where X.X.X is the Xporter version).

## License Activation

You can activate your license in one of two ways:

1. If you have a license that has been provided using the Atlassian Marketplace,
  - On your Jira Administration, select **Manage Add-Ons**.
  - Click on **Xporter for Jira**. Details about the plugin will be shown.
  - Edit the license key, insert your license hash, then click **Update**. Your marketplace license has been installed.
2. If you have a license that has been directly provided by Xpand IT, install it using the plugin internal licensing mechanism:
  - Open Xporter for Jira administration, in section Plugins -> Xporter for Jira -> License Management.
  - Click on **Click here to install a license provided by Xpand IT (not via Marketplace)**.
  - Insert the license hash and click **Add**.
  - If accepted, you are ready to use Xporter for Jira.
